EXECUTIVE SUMMARY

Deliverable 1.5. Overview of Events collects information (title, date, location, content, call and changes by the Covid-19) on significant events (conferences, seminars, workshops) which will be organised by the project as well as external events that can be of interest. The external events collected are not related directly to the ETHNA System project. They are events that due to their subject matter and content could be of interest to the consortium members, so they are informed of them through this document. These events are also included in the agenda section of the ETHNA System website to facilitate information to people who may be interested in these topics. ETHNA System project will provide a report containing this information each reporting period, and this would be coordinated and integrated in the dissemination Plan.

For the elaboration of the overview of events, the collaboration of all the partners has been requested, elaborating a joint working document. The information is collected in this deliverable in table form. In order to facilitate consultation, the events are also listed in the events section of the website.

The first Overview of Events was submitted by M3. The second Overview of Events is being delivered on M15 and the third will be presented on M36.

Future of Science Communication Conference	24-25 June 2021	Berlin, Germany	<p>The primary goal of the Conference is to provide an impetus for stronger networking and further transfer activities in Science Communication. The organisers emphasize that only effective and evidence-based science communication can help tackle the challenges in the relationship between science-public-media-politics in the coming years on the European level. For this reason, they consider that science communication research well connected at the European level is needed.</p> <p>Link for more information: https://www.wissenschaft-im-dialog.de/en/our-projects/fut@ure-of-science-communication-conference/</p>	28 February 2021	
9TH Living Knowledge Conference 2020. Synergies in Research with and for Communities	30. June 2021	Groningen, Netherlands	<p>The conference starts from the reflection that: "over the years, a myriad of approaches have been developed to do collaborative research with and for communities. Different names, different (ideological) histories, and (sometimes slightly) different objectives may obscure what we all have in common: an urge to co-create and share new knowledge for an inclusive, equitable, healthy and sustainable society". The conference will address issues such as science shops, research shops, living labs, citizen science, public engagement, participatory action research, investigative journalism, community-based research, user driven innovation, etc.</p> <p>Link for more information: https://livingknowledge.org/lk9/</p>	The Call for Proposals has been closed	They have had to decide to postpone the 9th International Living Knowledge Conference with one year to 2021. The rapid spread of the Corona virus and the resulting severe travel restrictions make it impossible to go ahead as planned.
EURSAFE Conference 2021	24. June 2021 - 26. June 2021	Fribourg, Switzerland	<p>The EurSafe Conference 2021 in Fribourg focuses on the key concerns of ethics and justice as a consequence of the climate change challenges.</p> <p>Link for more information: https://events.unifr.ch/eursafe2021/en/</p>	---	They are optimistic of holding the conference live, but are doing their best to hold the conference online if necessary.
XI European Conference on Gender Equality in Higher Education	15. September 2021 – 17 September 2021	Madrid, Spain	<p>The objective of the conference is to promote a culture of gender equality in higher education and research, as well as the incorporation of a gender perspective in national and regional funding agencies and in the innovation sector.</p> <p>Link for more information: https://epws.org/xi-european-conference-gender-equality-higher-education/</p>	The call for papers is closed

Trust in science in turbulent times EFC Research Forum Conference 2021	07 October 2021 - 08 October 2021	Lisbon, Portugal	The Research Forum Conference 2020 will focus on the public's participation in science and the public's trust in science. The organisers state that citizens need to understand the major questions of science and technology in the contemporary world, because it is in the present that decisions are made, for shaping impact in the future. Solidarity, between present and future, is therefore critically dependent on the full exercise of citizenship, and ensuring that science is trusted. Therefore, they consider that we have to go beyond the deficit model and engage in meaningful dialogue, not a monologue from science to society to ensure solidarity Link for more information: https://www.efc.be/event-post/efc-research-forum-conference-2021-trust-in-science-in-turbulent-times/	---	
Science&You 2021	November 15th to 19th 2021.	Metz (France)	Science&You aims at mixing research and practice in science communication, popularization and engagement, and is the place to share innovative and ground-breaking topics, exchange best practices and lessons learned, and why not invent new ideas and create new partnerships. The theme of the 2021 Conference is "Science Communication: Take a Step Back to Move Forward". Link for more information: http://www.science-and-you.com/en	Extended until February 19th 2021	
7TH World Conference of Research Integrity	29 May – 1 June 2022	Cape Town, South Africa	The theme of the 7th World Conference on Research Integrity is 'Fostering Research Integrity in an Unequal World'. The organiser is confident that the 7th WCRI will be interesting and relevant to Research Integrity stakeholders across all disciplinary fields from the basic and applied natural and biomedical sciences to the humanities and social sciences.
