D7.6 Project Video 1: Introduction to ETHNA System

August 2021

Uta Mommert, Lily Teitelbaum (BIOCOM AG)

Project Information	
Project Number:	872360
Project Full Title:	ETHNA System. Ethics Governance System for RRI in Higher Education, Funding and Research Centres
Project Acronym:	ETHNA System
Funding Scheme:	SwafS
Call identifier:	H2020-SwafS-2019-1
Start Date of Project:	01/01/2020
Duration:	36 months
Project Website:	Ethnasystem.eu

Deliverable Information	
Deliverable No:	D7.6
Deliverable Title:	Project Video 1: Introduction to ETHNA System
WP Number:	7
Lead:	BIOCOM
Contributing Partners:	UJI, FECYT, UNINOVA, ARCHIMEDES
Related Task(s):	T7.2
Type:	Video
Author(s):	Uta Mommert, Lily Teitelbaum, Elsa González-Esteban, Rosana Sanahuja.
Due Submission Date:	31.8.2021
Actual Submission:	31.8.2021

Dissemination Level	
PU	Public

Versioning and contribution History			
Version	**Date**	**Modified by**	**Reason for Modification**
1.0	15.7.2021	BIOCOM, Lily Teitelbaum	First draft
1.0	15.7.2021	UJI	The video is considered adequate and of interest to disseminate the project in an accessible and appropriate way. A number of issues to be reviewed or taken into account are indicated in the "Accuracy" criterion. Most of them have to do with aspects of inclusion from a gender perspective and differences between people.
1.0	15.7.2021	ARC Fund	Name correction to Estonia. Changes to terminology based on new ETHNA system guide. Correction of mistake in voice over of "four research centres"
1.0	15.7.2021	FECYT	Small copy changes: • Min 1:09 – "The ETHNA representative will form...", maybe change it for "The ETHNA Officer (as it is written in the animation). • Min 2:46 – it should say "Estonia" instead of "Estland". • Min 3:05 "ethics governance system for the use of responsible research and innovation ...", maybe change it to "ethics governance system to foster responsible research and innovation ..."? • Min 2:40 "four research centres" – check

			number of implementing research centres.
1.0	15.7.2021	UNINOVA	Some minor issues already identified need correction e.g. "Estland", etc.
			Also around min 3:00, when it says "... ethics governance system for the use of responsible research and innovation ...", the word "use" does not seem the most appropriate.
			Regarding the executive summary file, the title of Still image 6 does not clearly relate to the content of the video, i.e. the video does not talk about "evolution" of the system.
2.0	09.08.21	BIOCOM, Lily Teitelbaum	All corrective edits suggested above made (e.g. quotes corrected, country names corrected, logos added, web address and social media added).
			With regard to aspects of inclusion from a gender perspective and differences between people, a number of changes were made. A Female Voice Over was added. Female scientist as well as more diverse group of people shown (e.g. old, young, handicapped etc). More interaction and dialogue among the citizens was added to better represent transparency, equality, and open science. In addition, more images representing RRI were added (e.g. dialogue bubbles, scales).

EXECUTIVE SUMMARY

This explicative and collaborative introductory video, produced in the midterm of the project seeks to provide a general overview of the issue at hand, how the ETHNA project can help address these issues, what its main goals are and benefits for society. The video targets different audiences (researchers, HEFRC, RDI Institutions and organisations, NGO, civil society, etc.) and in a clear and captivating manner describes the ETHNA System concept. This introductory video will be complemented by other explanatory videos produced over the course of the project.
