ETHNA System Final Conference

Ethics and Responsible Research and Innovation in Practice

The ETHNA System Project is already working on the Final Conference during which we will be presenting the results of the Research and Innovation Ethical Governance System we designed and piloted over the three last years. During the conference partners and stakeholders will discuss future challenges and enabling factors in advancing responsible and open science.

Latest news

First results of the ETHNA System implementation process shared in Sofia

At a critical stage in the ETHNA System project, the consortium partners were brought together in Sofia, Bulgaria to exchange experiences on the implementation of the system in six partner organisations. For a project tackling institutional level change, the workshop successfully demonstrated tangible first results and valuable lessons to guide the project forward. Find out the major breakthroughs on developing the ETHNA legacy and fostering RRI institutionalisation from the two-day workshop in Sofia.
